

**A new era of SolarVu is here! Sign up for early access**

**Time and time again we heard from you:**

*"We love the functionality, we love your service, your product works great - but we want a modern look!"*

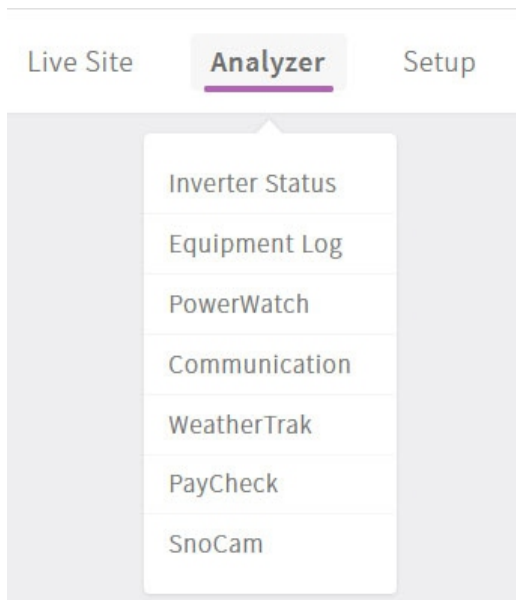

**Well, we heard the feedback and have been working on it amongst other new features and additional functionality coming soon. We are excited to announce that a new SolarVu portal view will be available for anyone with an active monitoring subscription!**

### What's changing?

- Key functionality from 'Site' and 'Live' pages now present in a single view!
- Find everything you are used to in the same way - now within an integrated "Analyzer" navigation tab for easier access

### Also - new features coming soon!

- Improved data download tools
- Enterprise ticket tools for managing truck rolls
- Improved API access and management
- Energy storage and load management views

**Contact us to get an early opt-in to the new**
